

BEAUTY WITHOUT CRUELTY

LEAPING BUNNY APPROVED PRODUCTS 2008

The Leaping Bunny programme is an internationally accepted standard, developed by a number of international animal organisations, that defines what constitutes a “not tested on animals” product. However, these products may contain ingredients that have been required by law to be tested on animals after a fixed cut-off date and are thus not approved by BWC.

The following companies have NOT been investigated by BWC, but are endorsed under the internationally accepted *Leaping Bunny Programme* www.leapingbunny.org.

LEAPING BUNNY ENDORSED PRODUCTS, INTERIM LIST 2008
